

PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience in Python, Full Stack Development, Artificial Intelligence, Machine Learning, Web Development, Database Management, and Cybersecurity. Experienced in building AI-integrated web applications using Flask, FastAPI, React.js, MySQL, PostgreSQL, NLP, LangGraph, and Generative AI. Strong foundation in REST APIs, SQL, authentication, database design, software development, and problem solving, with leadership experience in content creation, digital promotion, and technical event coordination.

TECHNICAL SKILLS

Programming Languages: Python, C, Java, JavaScript, SQL

Frontend Development: HTML5, CSS3, JavaScript, React.js, Bootstrap

Backend Development: Flask, FastAPI, REST APIs

Databases: MySQL, PostgreSQL, DBMS, Database Design, Data Modeling

Artificial Intelligence / Machine Learning: Artificial Intelligence, Machine Learning, NLP, Generative AI, Prompt Engineering

AI Tools & Frameworks: LangGraph, Groq API

Cloud & DevOps: AWS, Docker

Developer Tools: Git, GitHub, VS Code

Core Computer Science: Data Structures, DBMS, Computer Networks, Object-Oriented Programming

PROJECTS

Intelligent Web-Based Crime Management System | *Python, Flask, MySQL, HTML, CSS, JavaScript, Bootstrap, NLP*

- Developed an AI-powered crime reporting and police management web application with online FIR registration and complaint tracking.
- Implemented role-based access control and secure MySQL database management using a three-tier architecture.
- Integrated AI-based complaint categorization, chatbot functionality, NLP-based sentiment analysis, and complaint triage.
- Built an analytics dashboard for complaint and case-data management.

AI-Powered Cybersecurity Copilot — Major Project | *Python, FastAPI, React.js, PostgreSQL, JWT, LangGraph, Groq API, Docker*

- Developed a full-stack cybersecurity analysis platform using FastAPI, React.js, and PostgreSQL.
- Implemented password auditing, hash analysis, file integrity checking, network scanning, and phishing detection.
- Integrated LangGraph and Groq API for vulnerability analysis, CVE analysis, and security report summarization.
- Implemented JWT-based authentication and Docker containerization.
- Developed a threat-intelligence dashboard with PDF report generation.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Club of Programmers (COPS) — CBIT Kolar | Content and Visibility Lead

- Led content creation, digital promotion, and event visibility activities.
- Managed social media content, promotional creatives, captions, and event communication.
- Coordinated content planning, branding, and promotional campaigns with multiple teams.
- Mentored 15+ students and supported coding competitions involving 100+ teams.
- Contributed to audience engagement, digital outreach, and technical event promotion.

CERTIFICATIONS & TRAINING

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle University
- Prompt Engineering — SWAYAM
- Personality Development and Networking — Younity
- Exploring AWS through Hands-on Practice
- Hands-on Session on Computer Networks using Cisco Packet Tracer
- AI Unplugged: Machine Learning, Deep Learning and Generative AI

EDUCATION

B.E. — Computer Science and Engineering | *C. Byregowda Institute of Technology, Kolar (VTU) | 2023–2027, 7th Semester*
